DETAILED ACTION

The Amendments filed 1/2/08 and 3/14/08 have been received, entered into the record, and carefully considered. The following information provided in the amendment affects the instant application by:

Claims 1, 15-18, 23, and 25 have been amended.

Claim 28 has been added.

Claims 7-12, 14, 19-22, 24, and 26 have been canceled.

Remarks drawn to rejections of Office Action mailed 7/2/2007 include:

101 Rejections: which have been overcome by applicant's amendments and have been withdrawn.

Claim objections: which have been overcome by applicant's amendments and have been withdrawn.

112 1st paragraph rejections: which have been overcome by applicant's amendments and have been withdrawn.

112 2nd paragraph rejections: which have been overcome by applicant's amendments and have been withdrawn.

102(e) rejection: which has been maintained for reasons of record.

An action on the merits of claims 1-6, 13, 15-18, 23, 25, and 27-28 is contained herein below. The text of those sections of Title 35, US Code which are not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

The rejection of claims 1, 3-4, 6, 13, 15-18, 23, and 25 under 35 U.S.C. 102(e) as being anticipated by Beavers et al. (US 7,129,220 B2) is maintained for reasons of record.

Beavers et al. disclose compounds which anticipate the instant compounds : see examples 34 & 35 on column 47 for example. Example compound 35 is seen to meet the limitations of the instant compounds wherein: G is represented by G₁; R¹ is H; Y is NH; R² is H; Q is a C₁ alkylene group; and A is a group derived from a benzene ring. Beavers et al. disclose compositions comprising the same (see column 22, line 56 – column 23, line 61 – lines 55-61 discuss delayed release formulations). Beavers et al. teach that their compounds are useful as SGLT inhibitors, and thus in treating various conditions such as diabetes (see column 55), and also are effective in combination therapy (see columns 19-21).

Applicants filed a translation of priority document JP2003-97152, which has been considered, but is not sufficient to overcome the 102(e) rejection. It is noted that 102(e) is that with an earlier US filing date and foreign priority date is not the US filing date.

Allowable Subject Matter

Claims 2, 5, and 27-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art is not seen to teach or fairly suggest the claimed compounds with an ethylene group in the Q-position (as in claim 2) or a pyridyl group in the A position (as in claim 5).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
